94 NORTH-SOUTH
FREEWAY PROJECT

Project BRIEF

I-94 North-South Freeway Project information

ABOUT THE PROJECT

- Stretches 35 miles between the Mitchell Interchange in Milwaukee, through Racine and Kenosha counties to the Illinois state line.
- The $1.9 billion project will expand the interstate to four lanes in each direction and redesign 17 interchanges.
- Construction began in 2009 and will be complete in 2021.
- Visit the project Web site online at www.plan94.org

I-94 From WIS 50 to WIS 158 Construction Update

The Wisconsin Department of Transportation (WisDOT) is continuing construction on I-94 North-South Freeway Project. In Kenosha County, on November 28th construction of a retaining wall on the West Frontage Road south of WIS 50 will begin.

This late 2011 work on the West Frontage Road consists of constructing a retaining wall between the West Frontage Road and WIS 50 entrance ramp to I-94 EAST (SB). The following closures will be in effect to accomplish that work:

•Full closure of West Frontage Road from WIS 50 to approximately 1500' south to re-open late December 2011. Access to and from 77th Street will not be allowed from the West Frontage Road.

•Right lane closure on WIS 50 entrance ramp to I-94 EAST (SB) to open late December 2011. (Ramp to remain open)

Key	
	construction zone

The detour route during the West Frontage Road closure is: County Highway C - East Frontage Road - WIS 50.

The construction project is currently scheduled to last through 2013 with major work starting in early 2012. Current lane closures on I-94 WEST (NB) and EAST (SB) will re-open in early December 2011. Access to local businesses will be maintained throughout construction. The project team appreciates your patience and cooperation during this project.
