

The Kenosha County Health Department will be testing the two beaches at Lake George on a weekly basis this summer.

Below are the test results for August 29, 2017:

Lake George #1 (103<sup>rd</sup>) – <1 E.coli/100 mL

Lake George #2 (101st) – <1 E.coli/100 mL

Levels above 235 E.coli/100 mL prompt a swimming caution.

A beach is closed to swimming when test results exceed 1,000 E.coli/100ml.

**THIS IS THE LAST TIME FOR THIS YEAR THAT THE HEALTH DEPARTMENT WILL BE TESTING THE BEACHES.**
