## NOTICE OF PUBLIC INVOLVEMENT MEETING

3/1/17

TOWN OF BRISTOL,  
19801 83RD ST  
BRISTOL, WI 53104

**US 45  
Resurfacing and Reconstruction  
Illinois State Line to WIS 50  
Kenosha County**

All interested persons are notified that the Wisconsin Department of Transportation (WisDOT) will hold an open-house style information meeting to discuss the resurfacing and reconstruction of US 45 from the Illinois State Line to WIS 50 in the Village of Bristol, Kenosha County.

**The meeting will be held on Thursday, March 9th, 2017 at the Bristol Municipal Building, 19801 83<sup>rd</sup> Street, from 4 to 5 p.m. The contractor and WisDOT construction staff will be available to discuss the project and address any questions or concerns.**

The purpose of this meeting is to introduce the project team and to inform the residents and businesses of upcoming work within the project limits.

At this time, I would like to remind you that the mail boxes are your responsibility and not the contractor's. You will most likely have to relocate your mailbox for the duration of the project. Please contact your post office for placement.

If you know the location of any of your property corners which abut the construction limits, please notify me. We will tie down these existing property pipes and after construction we will reset the property pipes to their original locations.

If you have any existing drain or field tile, please contact me so that I can make the necessary changes to accommodate the flow.

I would like to take this opportunity to remind everyone of the safety hazards around a construction project. Driving at a reduced speed will make it safer for everyone concerned. Also, a highway project makes a very dangerous but attractive playground for children. Please warn them of the dangers and please keep them clear of the construction area.

If you have any questions, or if you cannot attend the meeting, but would like to find out more about the project, please contact me at (414) 750-4346 or [jeffrey.kuhn@dot.wi.gov](mailto:jeffrey.kuhn@dot.wi.gov).

More information can be found on the WisDOT project website at <http://projects.511wi.gov/us45ken/>.
